

A SMALL BUSINESS WITH BIG EXPERIENCE

Procon was founded in 1998 with a focus on providing collaborative solutions in program and project management. Over the years we have evolved to meet the changing needs of our clients to offer a full range of management and support services for construction, space planning, business, technology, and real estate. We provide strategic and technical advice, management, and implementation support for some of the largest and most complex projects in the national capital region and nationwide.

Kyu Jung and Mark Ilich founded Procon with a vision of leveraging their background in engineering and technology to create better, more holistic, ways for businesses to achieve their goals. Too often they had encountered experts who were good at what they did but suffered from technical tunnel vision and the inability to connect the dots in a way that was helpful to their clients.

Today we attribute our continuing growth and success to a steadfast commitment to our core values: client-centered service, sound and tested technical advice, innovation, and respect for our clients, partners, and colleagues.

OUR SERVICES

- Construction Management
- Space Management & Planning
- Business & Technology Management
- Real Estate Portfolio Services

OUR TEAM

As a company and as individuals, we are driven by the idea that good enough is never good enough. Our diverse team of talented professionals includes project managers, construction managers, space planners, interior designers, architects, engineers, real estate professionals, and management consultants. With decades of proven experience, we apply our complementary skills to quickly adapt best practices to the needs of each project. We bring principled leadership in our respective disciplines and work closely with our clients to provide seamless service from inception to completion.
